

# **KineticPulse Innovations**

## Meeting Minutes

25 March 2024

47 Tipuana Road, 9am

### **Present:**

Christopher Gary Teague

Ethan Swanepoel

James Pollard

Mishka Dewlok

Tariq Barnabas

### **Report:**

- A discussion regarding the hardware components was facilitated.
- Each group member took a hardware component and experimented in its features to see its functionality.
- All of us successfully got the components working.
- We then discussed which component would go where in the clothing garment.
- We also discussed our next plan of action.
- Tentatively, we are going to wait for Sarina to bring her kids so we can test the hardware.
- We also need her guidance on how to fix certain components.
- As it stands, we have not started with the API.

### **Conclusion:**

Group members were satisfied with the days progress and agreed to meet next on campus the following week. We will wait for supervision from Sarina to guide the next steps.
