

KineticPulse Innovations

Meeting Minutes

2 June 2024

47 Tipuana Drive, 10am

Present:

Christopher Gary Teague

Ethan Swanepoel

James Pollard

Mishka Dewlok

Tariq Barnabas

Report:

- A discussion regarding the hardware components was facilitated, and plan for the day was decided.
- The team each took their components and continued to build on it.
- Mishka and Ethan continued to build on the speaker, and recorded audio for notifying the user of a jump.
- Chris and James worked on getting the gyroscope working to detect a vertical jump.
- Tariq continued working on the ESP.
- A successful attempt was made to integrate the speakers with the gyroscope to notify the user through the speakers when a jump has been detected.
- This prototype progress will be shown at the mid-year presentation on Thursday, 6 June.
- Another meeting will be held to discuss the presentation.
- Mishka will design the PowerPoint needed for the presentation.

Conclusion:

Good progress is being made by the team, and we have progressed a lot to drive the beginning of our prototype. Our next meeting will be in the week to discuss the presentation, on 6 June to run through and brief members of the presentation.

Minutes done by: Mishka.

Approved by Ethan.

2 June 2024.
