KineticPulse Innovations

Meeting Minutes
22 March 2024
Microsoft Teams, 2pm

Present:
Christopher Gary Teague
Ethan Swanepoel
James Pollard
Mishka Dewlok
Tariq Barnabas

Report:

- A discussion regarding the project was facilitated.
- Each group member had an opportunity to identify their strengths within the project, as well as accept suggestions from other group members.
- Based on these suggestions, roles were roughly assigned to each member regarding their duties of the project.
- Roles will become clear as soon as the group is more experienced.
- The project and their components were discussed, deciding that Chris is the lead member for the Arduino components.
- A general plan of the clothing design including how to fit components within was discussed.
- Suggestions regarding the clothing design was given.
- Members suggested areas of fitting hardware such as lights, speakers, etc.
- Group agreed and decided to meet together to build a prototype.
- Date agreed for meeting is Monday, 25 March and Tuesday, 26 March 2024.
- In this meeting, all team members will work together to further test more hardware components.

Conclusion:
Group members agreed on meeting date and following proceedings. Meeting was concluded at 14:43.
